

AMF

Magnetic Pan Indexer "Drop In" Kit

For 410-610 Pan-0-Mat Bun Systems.

"AMF Again Brings The Best To You. Improve Your Panning Efficiency While Reducing Pan Wear And Jams With The New Magnetic Bun Pan Indexer"

- ▼ Servo Controlled Indexing Conveyor Provides Pin Point Panning Accuracy!
- ▼ Clutchless, Smooth, Continuous Motion!
- ▼ Easy To Program And Stores Up To 30 Pan Profiles!
- ▼ Easy Installation Into Existing Framework, No Modifications!

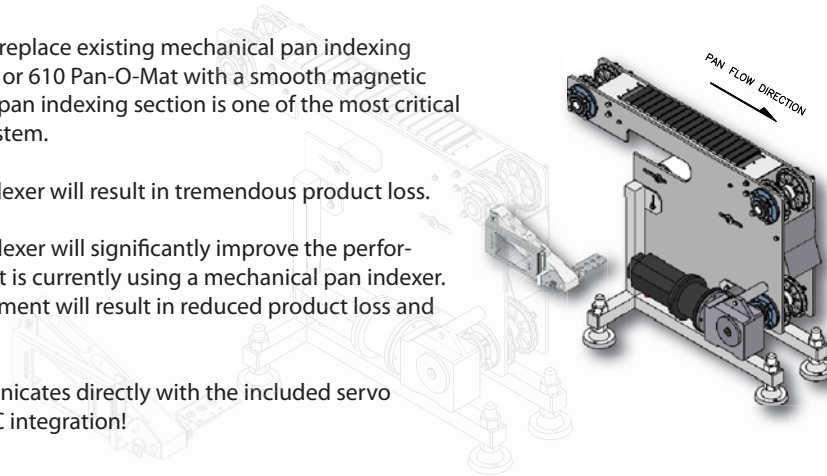

The AMF Magnetic Pan Indexer Kit

This kit is designed to replace existing mechanical pan indexing assemblies on an AMF 410 or 610 Pan-O-Mat with a smooth magnetic pan indexing system. The pan indexing section is one of the most critical areas of a bun make-up system.

A poor performing pan indexer will result in tremendous product loss.

This new magnetic pan indexer will significantly improve the performance on any bun line that is currently using a mechanical pan indexer. This performance improvement will result in reduced product loss and increased yield.

Operator Interface communicates directly with the included servo controller. No need for PLC integration!

410-610 Pan-O-Mat Magnetic Indexer Kit

- Free Standing Indexer With Articulated Feet.
- Intralox® Rubber Top Conveyor Matting For Slip Free Product Depositing.
- PanelView® Interface.
- Stainless Steel Enclosure To House Operator Interface.
- Pan 'Edge' Proximity Switch With Swivel Mount.
- Pan 'Detection' Proximity Sensor.
- 'Pan Gap' Detection Photoeye.
- Intermediate Proofer Proximity Switch.
- Premounted SEW® Gearbox And Coupling.
- Premounted Servo Motor.
- Servo Amplifier.
- Stainless Steel Electrical Enclosure With Premounted Electricals.
- Electrical Documentation.

Features and Benefits

- Convenient Mounting Inside Existing 410, 610 Pan-O-Mat Framework.
- Patented Continuous Motion That Provides Gentle Indexing Action Via Synchronized Magnetic Conveyor.
- Unmatched Performance From The Precise Servo Drive System.
- Operates Without Pan Stop Assemblies, Reducing Time And Labor Between Product Changeovers.
- Complete System Diagnostics Through The Operator Interface.
- Controller Resets After Each Pan To Eliminate Cumulative Errors.
- Box Enclosure To House The Operator Interface, Jog And Sensor Selection.
- Operator Interface Stores Up To 30 Pan Profiles.
- All Electricals Come Prewired And Mounted, Ready To Install.
