Combo Bread Slicer and Bagger

A combination bread slicer and bagger that improves packaging performance and reduces space requirements.

DESIGN INNOVATIONS

With over 50 years of experience in slicing innovation, AMF's Band Slicer offers maximum flexibility and reliability for slicing a variety of breads, from standard loaves to fruit breads. The bread bagger features a maintenance-free, high-speed pendulum scoop drive and flusher discharge conveyor for the smoothest loaf transfer available. The advanced drive design handles speeds up to 65 loaves per minute.

SANITATION

In addition to the corrosion resistant stainless steel frame and guards, AMF's innovative self-supporting lattice pull-out mechanism option maximizes access for routine sanitation and maintenance.

QUALITY

Automatic wicket exchanger allows wicket change without stopping the bagger. Bag over bread scoop system protects bags from crusty loaves minimizing damaged packages.

RELIABILITY

The pendulum system eliminates the costly maintenance of scoop drive gearboxes due to its low rotary actuation resistance.

SAFETY

The AMF bagger includes basic tunnel conveyor guarding as a standard for optimal operator safety. Blade break detection system and a high efficiency brake motor promptly stops the blades in emergency situations.

System Integration :
Combo Slicer-Bagger
with Slicer Feed Conveyor

Efficiency Delivered Up to 65 LPM

OTHER ADVANTAGES

- ▼ Chromed backing rollers maintain blade stability through slicing operation
- ▼ Safety broken blade detector bars ensure safe operation
- ▼ Optional 7.5 HP motor, steam cleaning system and drum scrapers available for fruit or gluten-free breads

Optional Flight Pusher Infeed

Cantilever Drum Design for Easy Blade Removal & Replacement

- ▼ Optional intermediate conveyor phase variator synchronizes the intermediate flights to scoop on the fly for maximum flexibility with loaf varieties
- ▼ Automatic dual wicket exchange system designed for U-shape bag wicket holders

Heavy Duty Self Supporting Stainless Steel Lattice Pull-out Mechanism

Automatic Dual Wicket Changer

- ▼ Discharge belt featuring patented flusher action eliminates the need of a flusher bar providing a smooth product transfer

Pendulum Scoop Drive

Flusher Action Discharge

- ▼ Optional extended 36" discharge conveyor
- ▼ Optional bag closure unit and printer

- ▼ The Combo is available with different options to suit your product specifications

- ▼ Wide slicer model available for thicker sliced product
