Bringing you the
technology of tomorrow
to your bakery, today.

Your Baking Partner of Choice

COMPREHENSIVE BAKERY LIFECYCLE MANAGEMENT AND GLOBAL SUPPORT SERVICES

Our mission is to help you and your bakery achieve the highest standards in quality baking and production line optimization. Through a collaborative partnership between your bakery team and AMF, we will enable you to extend the life of your bakery equipment, reduce equipment downtime, minimize waste, improve energy efficiency, increase line efficiencies, as well as achieve best in class operations and safety practices.

That's why now, more than ever, you can rely on AMF. **Your bakery is our world.**

OVER 100 YEARS OF SERVICE

Backing a strong brand with even stronger support, AMF Bakery Systems has been building our team of experienced bakery engineers since 1915.

All equipment installations, operator training, upgrades, and technical services are completed by certified AMF technicians along with the industry's leading engineers specializing in equipment design and repair including diagnostics, maintenance, safety, sanitation, and operation.

Aftermarket Parts and Services

REPLACEMENT PARTS

Order quality replacement parts or spares for all AMF equipment. AMF's Parts Department is your number one resource for reliable parts to ensure your equipment continues to run at optimal efficiency for the life of your bakery.

FIELD SERVICE

Meet AMF's certified field technicians, specializing in bakery equipment design and repair. AMF's service team works alongside yours to ensure flawless installations and start-ups, superior operator training, and technical services to keep your bakery running at optimal efficiency.

UPGRADE KITS

Improve productivity, accuracy and energy efficiency by upgrading your bakery equipment to the latest industry standards. AMF supplies the highest quality components for all upgrade kits to employ the most innovative manufacturing processes.

24/7/365 CUSTOMER SUPPORT

Contact AMF's customer support team to quickly resolve any issues you may have with your AMF equipment. AMF's Customer Support Center is available 24 hours a day, 7 days a week and 365 days a year to deliver the personalized care your bakery deserves while minimizing downtime.

“I can always count on AMF to come through on my projects which is why I keep coming back.”

PERFORMANCE EVALUATIONS

Request a complimentary, on-site evaluation of your entire production line to maximize performance. After a thorough analysis of system inefficiencies, AMF's R&M Group provides a complete inspection report with parts or repair recommendations to improve safety, streamline operations, maximize efficiency and ensure reliability.

REPAIR & MODERNIZATION

Restore your baking systems to better than new conditions with AMF's dedicated R&M Group, servicing multiple manufacturer brands. Point-by-point inspections, equipment rebuilds, upgrades, oven relocations, chain evaluations, and much more ensure you maximize the return on investment of your bakery equipment.

PARTNERSHIP MAINTENANCE PLANS

Plan your preventative maintenance program for the coming years with regularly scheduled visits by AMF's certified technicians. AMF's Partnership Maintenance Plans offer the lowest total cost of ownership through increased availability and reliability of your equipment.

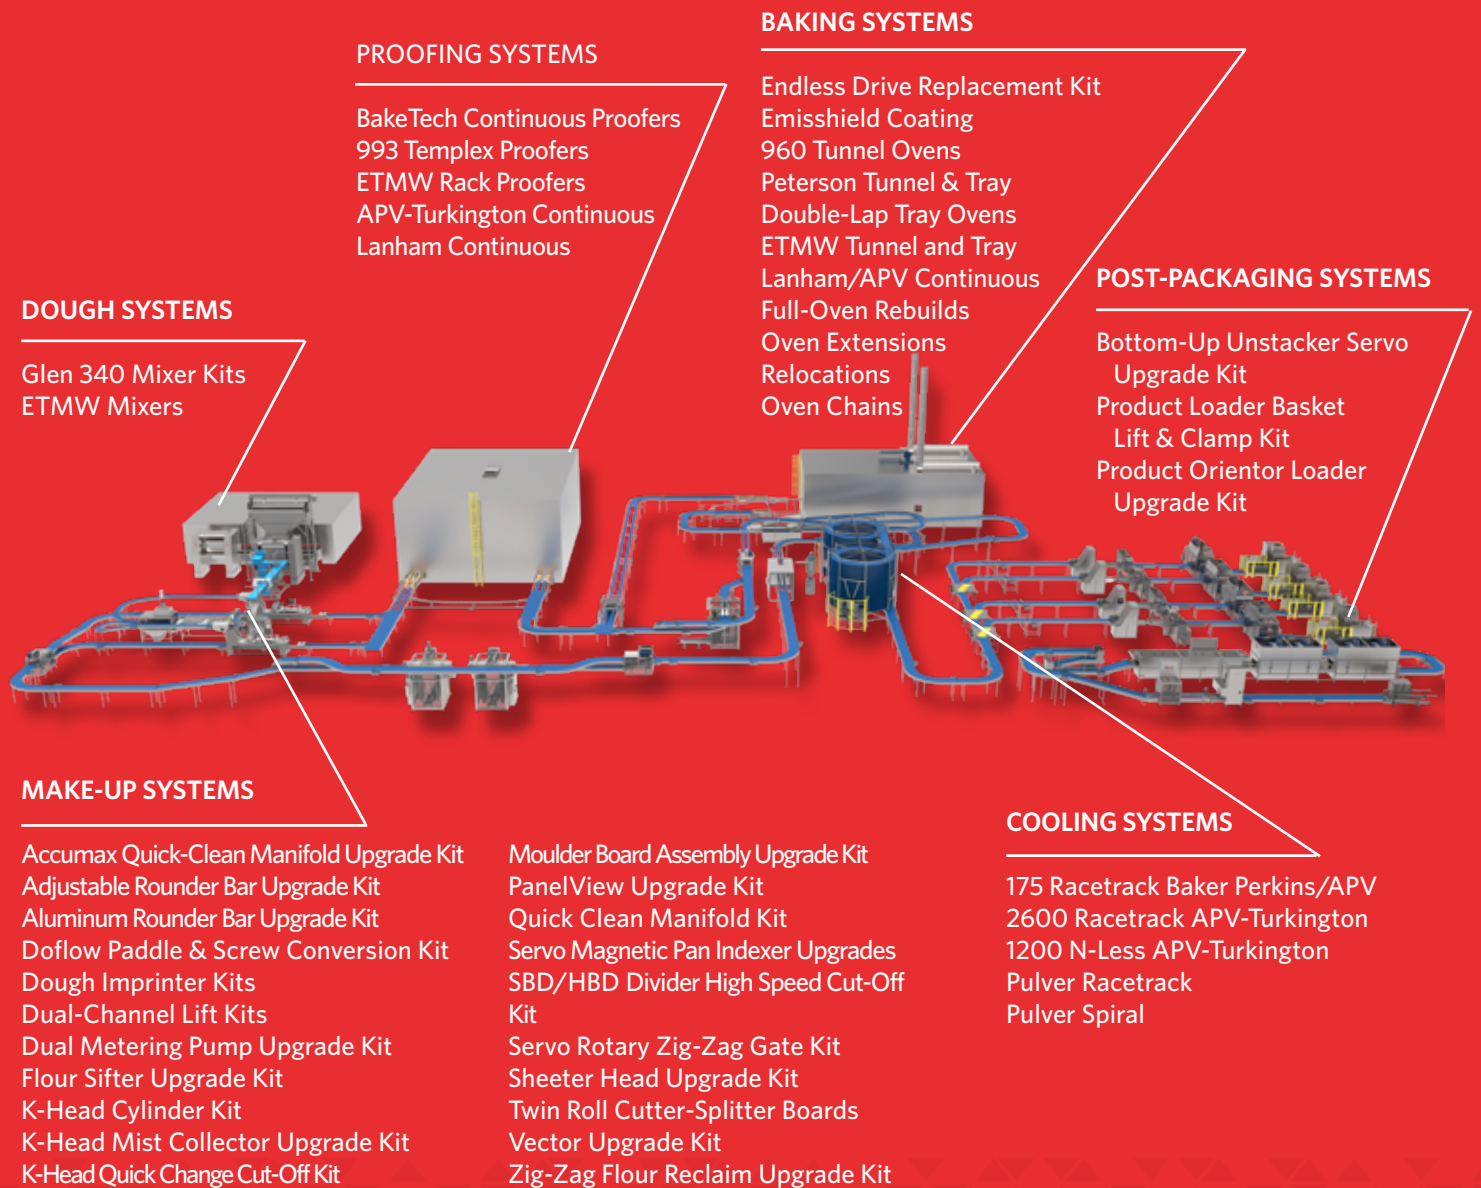

OPERATOR TRAINING

Choose a customized on-site training plan for your plant personnel to ensure that your operations and maintenance teams are both confident and energized for success. The interactive **AMFMethod™** Documentation and Training tool allows for on-demand access to equipment manuals, video tutorials, and operator testing.

We offer a wide range of REPAIRS AND UPGRADES

ADDITIONAL PARTS, REBUILDS, KITS, & REPAIRS AVAILABLE UPON REQUEST

Contact AMF's Repair & Modernization Group to upgrade or rebuild your systems to the highest AMF standards.
