

# A-Series Conveyors

---

Designed for high operating efficiency and low maintenance, built with anodized aluminum side frames and rust-free materials. Suitable for a wide range of products and bakery layouts.

# DESIGN INNOVATIONS

With many decades of successful installations, customer feedback and continuous improvement, AMF offers the perfect A-Series Conveyor solution engineered to meet food industry standards. Proven reliability with components designed for each specific application and low maintenance operation.

## PERFORMANCE

Built with the best belting technology available in the food industry to optimize the performance of your system.

## SIMPLICITY

Drive and tail assembly are easily removable. A-Series Conveyors and conveyor belts are custom-engineered according to application.

## QUALITY

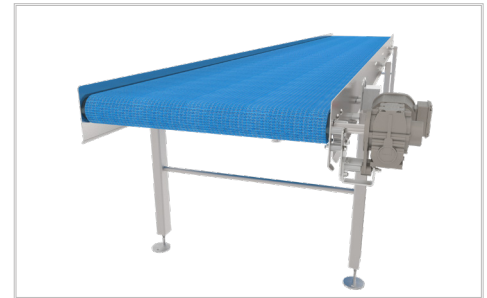

Engineered for low-maintenance, A-Series Conveyors are built with quality materials and components for corrosion resistance and life expectancy of the conveyor.

## CONTROL

AMF's complete conveying systems are engineered with electrical enclosures to suit all conveying applications.

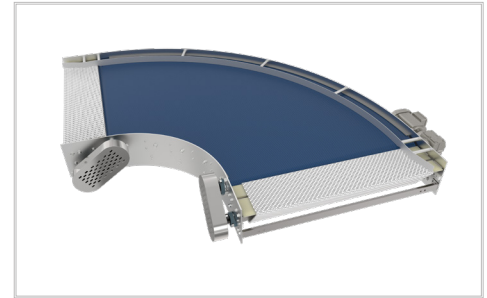

Magnetic Belt

Friction Belt

Full Stainless Steel Belt

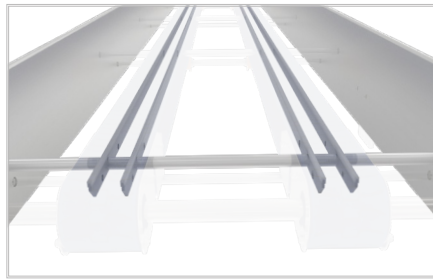

Zero Tangent Curve Belt

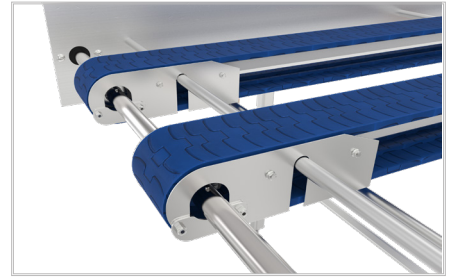

## Engineered for Performance

# OTHER ADVANTAGES

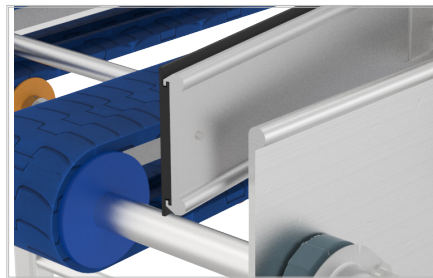

- ▼ Robust construction with quality materials and components optimizes the performance and life expectancy of the conveyor.
- ▼ Custom conveyor solutions are engineered to specific application and layout requirements with the highest safety standards.
- ▼ Designed with vertical belt support rails to eliminate debris accumulation.
- ▼ Two-piece sprocket guard for high safety levels and zero build-up.
- ▼ Anodized aluminum flat bar rails with UHMW clip-on wear strips are held with a stainless steel threaded rod and aluminum round spacers.
- ▼ Conveyors are built with high-quality stainless steel hardware.

Anodized Aluminum Flat Bar Rails

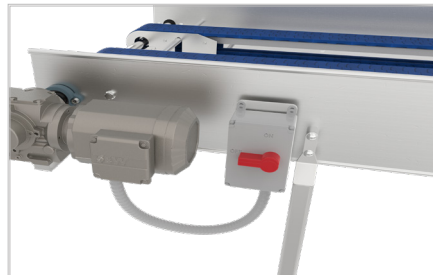

Two-Piece Sprocket Safety Guard

Beaded Anodized Aluminum Guides and UHMW Wear Strip

Solid Return Rollers

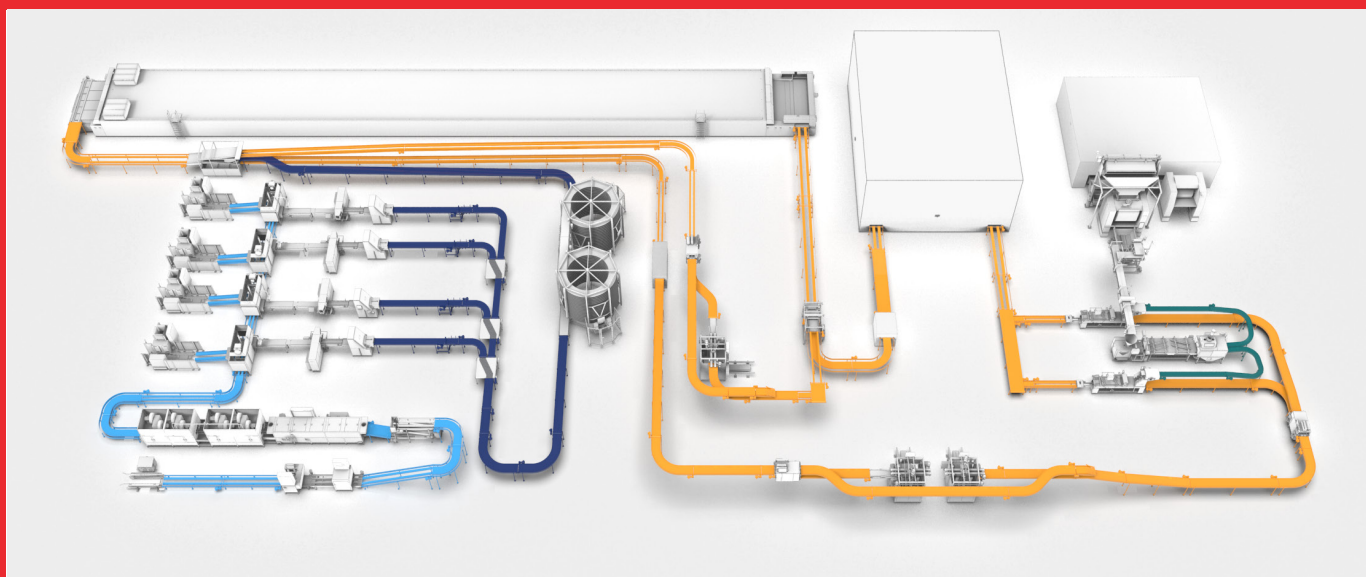

Distinct Disconnect Switch for Easy Installation

Stainless Steel Tubing Leg Design

# CONVEYING SYSTEMS

Basket

Product

Pan & Lid

Dough Ball

Custom-configured conveying systems carry your products through the bakery. More systems are available for Cases, Basket Stacks and Pallets.
