

Vesta Tray Oven Loader and Unloader

Robust design for side loading and unloading bread and bun pans with accuracy and consistency under fast rates.

DESIGN INNOVATIONS

AMF Tray Oven Loader and Unloader integrated with AMF Vesta Tray Oven improves baking performance.

- Full table top high temperature plastic belt preserves product quality from carrying surface and preserves pan positions.
- Efficient metering pan count, gapping and centering adjustable per recipe.
- Pusher bars engineered for smooth pan transfer, eliminate product damages during the loading/unloading cycle.
- Optional redundant drive for faster maintenance recovery.
- Mounted on casters and quick disconnects to provide easier access and reduce maintenance time.
- Handles up to 6 cycles per minute.

AMF IS A MARKEL FOOD GROUP COMPANY

AMF's focus on continuous improvement may result in changes to machinery specifications without notice.
