

# Vesta Tunnel Oven Loader

---

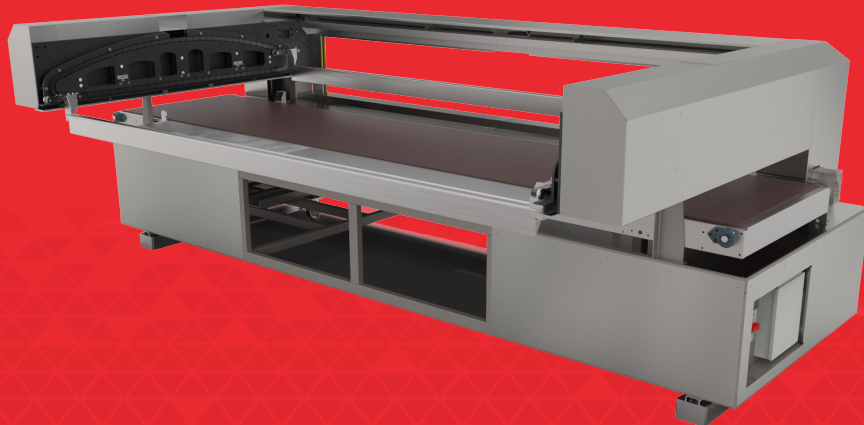

Designed for side-loading bread pans, the dual pusher bars gently feed tunnel oven with accuracy and consistency.

# DESIGN INNOVATIONS

AMF Tunnel Oven Loader integrated with AMF Vesta Direct-fired Tunnel Oven improves baking performance.

- Full surface plastic belt for high temperature keeps product quality while carrying pans.
- Efficient metering pan count, gapping and centering adjustable per recipe.
- Dual pusher bars engineered for hardway to easyway smooth pan transfer, eliminate product damages during the loading cycle.
- Optional redundant drive for faster maintenance recovery.
- Mounted on casters and quick disconnects to provide easier access and reduce maintenance time.
- Handles up to 6 cycles per minute.

AMF IS A MARKEL FOOD GROUP COMPANY

AMF's focus on continuous improvement may result in changes to machinery specifications without notice.
