Zig-Zag Flour Reclaim Upgrade Kit

Reduce ambient flour dust for improved operator working conditions and overall machine cleanliness

- Save money via re-usage of dusting flour
- Solutions available for multiple types of AMF Bun Lines

ZIG-ZAG FLOUR RECLAIM UPGRADE KIT

FEATURES AND BENEFITS

- Designed for multiple vintages of AMF bun lines (including, but not limited to, 410/610 Pan-O-Mat, ABS, Pan-O-Mat Plus, Accupan)
- Featuring K-Tron (Premier) Vacuum Loader in either painted or stainless finishes
- Paired with high-efficient Piab vacuum pump (requires 90 PSI air supply)
- Lower zig-zag collection pan and chute designed for existing bun line compatability
- Typical kit includes mounting components, sifter hook-up, solenoid valves, and air preparation
- Program modifications and electrical drawing updates may also be included with kit

ORDERING INFORMATION

- Reclaim kit may be ordered by itself or in combination with additional new AMF upgrades, including:
 - Flour Sifter Upgrade Kit
 - Servo Rotary Zig-zag Gate Upgrade Kit
- Consult AMF Parts for correct Kit/Pricing based on existing machine
